

THE PANASONIC FP-7718 COPIER.

The FP-7718 is the fusion of proprietary technologies and user-friendly features resulting in a new standard of copier productivity and performance. The FP-7718 features Panasonic's patented **QUANTUM™ TECHNOLOGY**, which was designed to create the highest quality reproduction possible. Also contributing to improved copy quality is our new **UltraMagnefine™** toner. It increases density and fine-line quality of copied images with toner particles that have been reduced to nearly half their previous size. The FP-7718—truly the new standard of copy quality.

Specifications

- A more productive copier. A remarkable 4.8 second first-copy time! Even when you're using the Automatic Document Feeder, speed and productivity are maintained at 100 percent!

**100%
PRODUCTIVE**

- Drawers that hold more paper. The FP-7718 offers a standard 550-sheet paper drawer as well as a 50 sheet stackable bypass. It can also be optionally equipped with up to three additional 550-sheet paper drawers. This increases the maximum paper capacity to a hefty 2,250 sheets!

- Brilliant Copy Quality. UltraMagnefine™ toner increases density and fine-line quality of copied images with toner particles that have been reduced to nearly half their previous size.

User friendly features:

- Skyshot Mode eliminates dark areas around smaller-size originals even when the cover is open.
- Interruptions— No Problem! Automatically interrupt a job in progress without having to reprogram the original job.
- OHP Interleaving lets you insert pages between transparencies, minimizing static electricity.

Quality Guaranteed.

The PanaSure Program, one of the industry's most comprehensive warranty programs, is available for the FP-7718 from participating dealers.
