

# Panasonic FP-D350/350H Digital Copier/Printer

## The One-Stop Digital Document Processing Solution

The FP-D350 and the FP-D350H are the answer to today's multi-faceted office environment. Based on the design of our award winning Medallion Series Copiers, our new digital series positions any company with growth and flexibility beyond compare.

## Everything You Would Expect from a Panasonic Copier

### Speed

You get a fast first copy time of 3.9 seconds and a high-speed copy/print engine at 35 cpm. Plus, a wide variety of finishing options such as stapling, electronic sorting and hole punching will make you even more productive.

### Flexibility and Reliability

- Scan Once/Print Many saves wear and tear on the copier.
- Electronic Sorting gives you all the advantages of high-end copy stations.
- Digital SkyShot Mode gives you complete flexibility with smaller sized originals.

### Crystal Clear Copies

High resolution 600 x 600 dpi copying and printing with Digital QUANTUM™ technology.

### Versatility

With the power of our digital technology, you get convenient features like bi-directional zoom, mirroring, inverting, automatic page numbering, 4-in-1, and automatic centering.

### The Revolutionary Hyper Document System™ (FP-D350H)

Our proprietary Hyper Document System™ gives you unprecedented document filing and retrieval capabilities. Our unique Digital Document (DD) code allows you to automatically retrieve any document at the touch of a button.

### Convenient Document Storage

The 1.5 GB hard drive and 100 MB Zip® Removable Drive are standard (FP-D350H), and through your network connection, additional storage is limited only by the capacity of your file server and storage devices on your network.

### Multiple Networkability Options

You have the ability to access and print out documents either from your PC or remotely from any PC on your company Local Area Network using Windows, Netware or UNIX operating systems (with options).

The FP-D350 and D350H, the one stop solution for all of your document processing needs.
