

We LOVE our Panasonic printer/copier/scanner from Southwestern Office Systems!

Before purchasing our printer, we looked at various companies and models - yet chose Southwestern Office Systems and the Panasonic DP 354. The decision was very easy for us to make - Southwestern Office Systems not only have great products at reasonable prices, they also have a wonderful service philosophy.

Southwestern Office Systems makes sure their customers are well trained on the equipment and our supplies are not only reasonable priced, they always arrive ahead of time before we actually need them so there is no down time. We have had our machine for about a year now and are still extremely happy with our purchasing decision. Our equipment is very reliable and we have had no problems with it.

We get compliments all the time on the print quality. We use it for routine printing, scanning, and faxing, but also to print brochures and booklets. Other agents are amazed at the high print quality - and how inexpensive it is for our agents.

We highly recommend the Panasonic and Southwestern Office Systems to anyone looking for a new printer. We still have no complaints and totally love our machine!

We feel we made an excellent decision in purchasing from Southwestern Office Systems and our experience has been nothing but wonderful.

Sincerely,
RE/MAX Realty Center
